SECTION 1

CONSTRUCTION ANNUAL AWARD

The office building built by PRO DEV was noticed, evaluated and rewarded.

SECTION 2

WE ARE CREATING NEW VALUES

Construction projects implemented in high quality often predetermine the success of entrepreneurs, and quality and safety of the life of the population. We keep this in mind when implementing each and every construction project.

SECTION 3

GREAT THINGS STARTS FROM SMALL BEGINNINGS

With a little change in our habits, all together we can achieve tangible results, which would reduce the investment of money and time resources, as well as reduced consumption of natural resources ...

SECTION 4

COOPERATION OPPORTUNITIES

We can offer an opportunity to show the brand and business in Europe.

A modern office interior with a dark carpet, white desks, and black ergonomic chairs. A person in a black outfit stands by a large window, looking out. The ceiling has exposed concrete and modern lighting fixtures. The overall aesthetic is clean and professional.

NOTICED, EVALUATED, REWARDED.

The mission of the Competition Latvian Construction Award is to popularize safe, innovative, high-value and aesthetically-quality buildings and structures constructed in the territory of the Republic of Latvia or outside it, if the citizens of Latvia - builders, designers, manufacturers of construction, etc. are responsible for the implementation of the project.

PRO DEV built B class office building complex in Mūkusalas Street 42, Riga, was put into operation in spring 2017.

The building complies with the competition mission, regulations and fulfills all the conditions to qualify for a place among the 2017 best buildings...

This was also confirmed by the jury represented by architects, restorers, construction designers, and others with industry related specialists who in February visited the office building to assess the builders, architects and construction supervisors to follow-up the quality of the building...
